

Progress SDE+ tender wind at sea

Week 14 2015

Consultation concept ministerial regulation
(www.internetconsultatie.nl)

May 2015

Letter to parliament

End of June 2015

Publication ministerial regulation

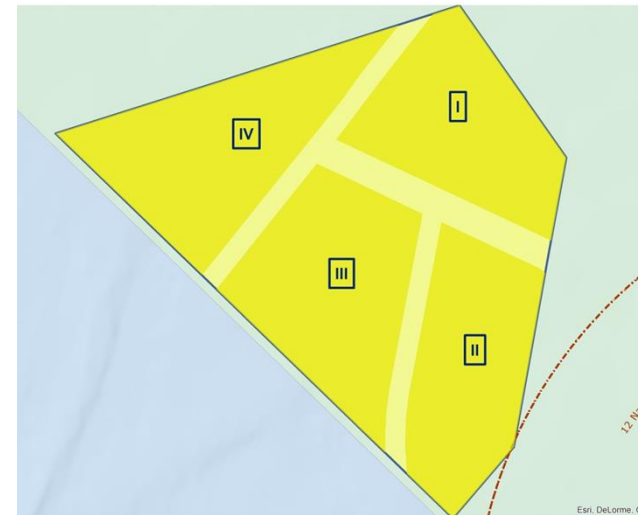

December 2015

Opening tender

Concept ministerial regulation: who wins?

- The winner is the participant with the lowest bid on a site (regular bid).
- Possibility to bid on both sites (combined bid), if both bids are lower than the lowest regular bid on a site, you win both sites. If not, you do not win any site.
- If there are more combined bids that are lower than the lowest regular bid on a site, the best average combined bid wins both sites.

Flexibility design wind farm

1. Wind farm site decision
2. P50 full load hours
3. MW range

- 1 site** (number of MW wind farm site decision +1) – MW of one turbine
- 2 sites** minimum site I + minimum site II

For example Borssele with 4 MW turbines

Site 350MW: $(350+1) - 4 = 347$ MW (87 turbines of in total 348 MW)

Criteria

- Equity capital at least 5% of the investment.
- Two bank guarantees:
 - €5 million after winning the tender
 - €25 million one year after winning the tender
- Realisation of the windfarm within 5 years after winning the tender.

Opening and closing date tender

June 2015 – publication MR

December 2015

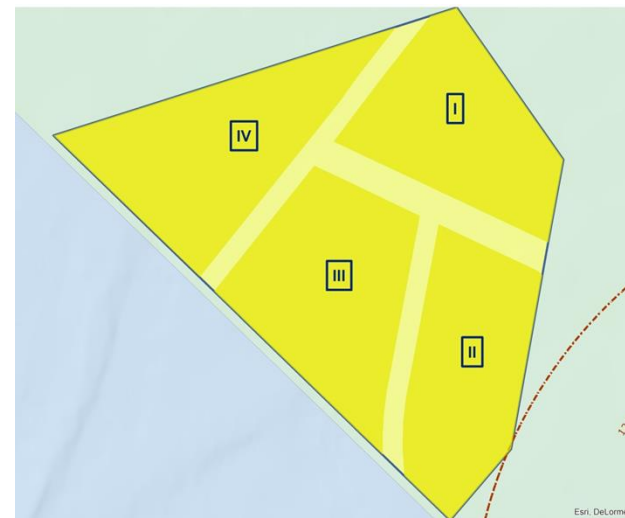

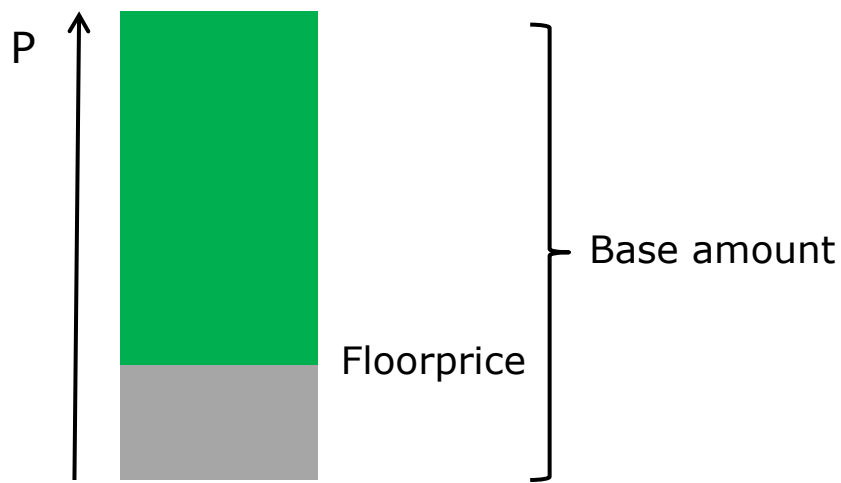

31 March 2016

Tender open

Concept calculations ECN

- Base amount Borssele (I&II) 123 euro/MWh
- Floor price 29 euro/MWh
