Zone Borssele - individual wave height distribution for sites II, III and IV.

This Letter provides a status of DNV GL's review of the revised Deltares tables presenting the individual wave height distribution for BWFZ sites II, III and IV.

DNV GL finds that the revised individual wave height distribution for BWFZ sites II, III and IV presented in the tables are appropriate to be applied as background for design.

Sincerely
for Det DNV GL Denmark A/S
