## Information request regarding Hollandse Kust (zuid) Wind Farm Zone subsidy-free tender for Dutch offshore wind farm

**The Ministry of Economic Affairs invites you to provide your feedback on the weighing and specifying of the ranking criteria for the tender for Sites I and II of the Hollandse Kust (zuid) wind farm before 14 August 2017. You can do this via [woz@rvo.nl](mailto:woz@rvo.nl).**

The tender for Sites I and II of the Hollandse Kust (zuid) Wind Farm Zone is scheduled to open this autumn, initially with a procedure without subsidies. Minister of Economic Affairs Henk Kamp announced this in a letter to the Second Chamber on June 28, 2017.

In this tender, market parties may submit a bid for the realisation of the wind farm without subsidies. In the event this tender procedure fails to yield an acceptable bid, a tender procedure that includes subsidies will be initiated.

### Ranking

In the tender without subsidies, bids will be evaluated based on criteria established in the [Offshore Wind Energy Act](#).

This refers to the following criteria:

- a. The knowledge and experience of the parties involved;
- b. The quality of the design for the wind farm;
- c. The capacity of the wind farm;
- d. The social costs;
- e. The quality of the identification and analysis of the risks;
- f. The quality of the measures to safeguard cost-effectiveness.

In the coming period, these six criteria will be elaborated on in a new Ministerial Order for Offshore Wind Energy. For this tender, the deciding factor will no longer be the lowest price, but rather the quality of the bidding party, the quality of the design and the quantity of electricity that will be produced.

In the event the subsidy-free procedure fails to yield an acceptable bid, a tender that includes subsidies will be opened. These bids will then be ranked based on the bid price; this tender will be comparable to the previous tenders for the wind farms in the Borssele Wind Farm Zone.

### Ministerial Order for Offshore Wind Energy and PSD

The procedure for tenders without subsidies will be elaborated on in a new Ministerial Order for Offshore Wind Energy. The Project and Site Description (PSD) for Hollandse Kust (zuid) Sites I & II will also be adjusted to include an explanation of the new tender procedure. Please regularly check our [revision log](#) to see the latest updates.
