Update: Upcoming Hollandse Kust (west) tenders

30-06-2021
Emelie de Wagt
Ministry of Economic Affairs and Climate Policy

This presentation has been produced for information purposes only and is not intended to replace any legal or formally communicated rules, regulations or requirements.

Project highlights Hollandse Kust (west)

- Roadmap 2030 and North Sea Energy Outlook
- 2 wind farm sites: VI and VII (2 x 0,7 GW)
- Shore landing at Beverwijk
- Stakeholder consultation (spring – summer 2021)

Draft comparative assessments (Site VI)

Security of realisation

- Knowledge and experience of sub-contractors; equity; parent-company guarantees

Contribution to the energy system

- Bandwidth: 3.000.000 MWh – 3.400.000 MWh p/a

Ecological Innovation

- Incentivise investments to benefit the North Sea ecological environment (additional to Site Decisions)
 - Focus 30% on roll-out and 70% on innovation
 - Differentiate between protected species (+++), unprotected species (++), and nature enhancement (+)
 - In both cases points for knowledge sharing and information & adding to existing research
-

Draft comparative assessments (Site VII)

Security of realisation

- Knowledge and experience of sub-contractors; equity; parent-company guarantees

Contribution to the energy system

- Bandwidth: 3.000.000 MWh – 3.400.000 MWh p/a

System Integration

- Incentivise investments to benefit / increase the scalable flexible demand in line with the supply profile and system integration; off- and onshore
 - Focus 70% on roll-out and 30% on innovation
 - Needs to be executed on Dutch national territory, but geographical distance to shore landing is not weighted
 - Additional to commitments made for wind farm Hollandse Kust (noord)
 - In both cases points for knowledge and information sharing
-

Planning: Hollandse Kust (west)

Detailed look at the planning

Milestone	Expected planning (to be confirmed)
1 st Draft Wind Farm Site Decisions	Q1, 2021
2 nd Draft Wind Farm Site Decisions	Q3 2021
Definitive Wind Farm Site Decisions	Q4 2021
Offshore Wind Act into force	Q3 2021 (tbc)
Publication concept tender regulation	Q3 2021
Publication final tender regulation	Q4 2021
Opening date tender	Q1, 2022
Closing date tender	(end) Q1 2022
Winner announced	(end) Q2 2022
Commissioning HKW-alpha OHVS platform	Q1 2024
Expected commissioning windfarm HKW-VI (alpha)	Expected commissioning windfarm 2025-2026
Commissioning HKW-beta OHVS platform	Q1 2026
Expected commissioning windfarm HKW-VII (beta)	Expected commissioning windfarm 2025-2026
